$1,000,000 FIRE LOSS

That Amount Goes Up In Smoke at Cincinnati, O.

ENTIRE BLOCK DESTROYED

Pittsburg Also Has a Fire Entailing a Loss of $250,000—Blaze Started from Explosion of Gasoline in a Pressing Club Establishment.

Cincinnati, Ohio, Aug 24.—Fire which started at 9 o'clock Thursday night destroyed the entire block at Hunt and Broadway, entailing a loss estimated at $1,000,000. The fire, it is said, started in the Eagle and Phoenix lead plant, and spread to the adjoining building. At 11 p. m. the following buildings had been destroyed:

B. H. Goger grocery warehouse; Morrison & Snodgrass; planing mill of Aetna Smelting company; D. T. Williams Valve company, Roberts Lumber company; Khrebbiel Printing company, and the Burlick Wagon company.

Pittsburg, Aug. 23.—Two fires on Thursday caused by the explosion of gasoline in clothes pressing establishments caused damages estimated at $250,000 and for a time threatened the entire east end section of the city. The fire first broke out in the club pressing and cleaning company on Pennsylvania avenue. The three-story building was destroyed and fourteen employees were rescued from the windows by firemen. The second fire was more serious and before it was controlled seven buildings were wiped out.

TRAGEDY IN ALABAMA.

Claimed that Wife Blew Husband's Head Off.

Eufaula, Ala., Aug. 24.—A tragedy occurred 3 miles about town, as a result of which Levi Cade is dead. It is claimed that he and his wife had not lived happily of late and he beat her and ordered her to leave the place. He then lay across the bed, when she picked up a shotgun and fired, literally blowing away the top of his head.

His brother, Jim Cade, of this city, went out in company with John Fay to take charge of the remains.

Saved by Branches of Tree.

Parkersburg, W. Va., Aug. 24.—Mrs. E. M. Curry, with one leg broken, was rescued from the branches of a tall tree by her husband, a prominent farmer living on Rocky Creek, Boone county. Mr. and Mrs. Curry were driving along a rugged country road overlooking a rock cliff when their horse became unmanageable and ran away. Mrs. Curry was thrown over the cliff, and would have met with instant death on the rocks below had she not fallen into the branches of the tree. She received the broken leg when she alighted in the branches.

Unique Law Suit.

Toledo, Ohio, Aug. 24.—A coll[ision] forms the basis of a unique suit filed here against the Lake Shore and Michigan Southern railroad [by] born Snyder, a postal clerk. plaintiff alleges that he was [em]to ride between Cleveland a[nd] in a car which was insufficien[tly] ed, and that it gave him [injuries] which was followed by pn[eumonia] and finally developed into c[onsump]tion. He demands the sum [of] 000. This is the first suit of [its kind] filed in Ohio, it is said.

Murdered for His Money.

Chicago, Ills., Aug. 23.—T[he body] of Evandor McIver, a weal[thy con]tractor residing on Prairie [avenue] was found Thursday in a [shed] leading to a base ment at th[e corner] of Twenty-fifth and State [streets]. There were marks of violence [on the] body, all of the money and v[aluables] had been taken and it is the [belief] of the police that McIver was [murd]ered and thrown down the [stairway]. Death had evidently been caus[ed by] a blow on the head that had fra[ctured] the skull.

GOV. COMER CONFIDENT.

Executive Will Leave in a Few Days For Northern Points.

Montgomery, Ala., Aug. 24.—The majority here believe that Governor Comer has made a winning play in his threat to call the legislature together in case the laws of the state are not accepted and put into force by all the railroads.

It is generally recognized that the legislature can make a great deal of trouble for the railroads if it should be assembled. It is also well known that members are disposed to get at the bottom of the trouble if it is possible to do so.

That the governor is confident of the outcome in the state is evidenced in his announcement that he will leave in a few days for his vacation in Atlantic City and other points. While away he will have a word with Governor Hughes, of New York, and, it is rumored, may drop in on the president if the latter is back in Washington by that time. It is well known that despite the evident disposition of the Alabama executive to get at dagger's points with the local judge of the federal court, the present occupant of the white house has a great admiration for him.

Sheriffs and solicitors have been sending in answers to the application of the Louisville and Nashville to have them enjoined for enforcing state laws, rapidly. The clerk of the federal court is being swamped with them. Solicitor Dent, of the Montgomery court, was the first, followed closely by Sheriff Belsey, of this county. All are in the form sent out by Governor Comer, upon which he asked that such answer be made. They set out that the federal court has no right to enjoin them from making arrests on indictments and from prosecuting the cases when brought up; also that the action proposed to be taken is invalid, in the light of the constitution of the United States.

The hearing on the application will be before Judge Thomas G. Jones Saturday. He will then decide whether or not he will make final the order restraining the officers of the state from interfering with the employees of the Louisville and Nashville railroad.

RUSHING WORK ON THE CANAL.

Commission to be allowed to Spend an Extra $8,000,000.

Washington, D. C., Aug. 24.—A careful examination of the law governing the construction of the Panama canal has satisfied Acting Secretary of War Oliver that the president is authorized to grant the request of the Isthmian Canal Commission for permission to create a deficiency of $8,000,000 during the current fiscal year to meet the requirements of the engineering department for an elargde scale of operations.

The president has been so advised and on his approval permission will be cabled to the commission.

Will Not March On Interior.

CONSPIRACY EXPOSED

Plotters Were Mangled by Explosion of Their Own Bomb.

PLOT AGAINST KING CARLOS

Premature Explosion at Lisbon Kills Two Persons and Reveals to Police Designs Upon the Lives of the King and Queen.

Lisbon, Aug. 24.—The explosion of a bomb here which killed two persons and fatally injured two others, brought to light a plot, hatched by republican conspirators to assassinate King Carols and Premier Franco and to seize the government of Portugal.

The police allege that the head of the conspiracy is Jesse Bettencourt, a medical student.

On searching his apartments they found a number of letters and papers which resulted in the arrest of 30 Republican leaders. They have been placed on ships and under heavy guard.

Bettencourt lives in the tenement district of the city, and his rooms have been the headquarters for republican agitators and conspirators.

The explosion took place in Bettencourt's room and the men killed and those injured were conspirators against the king and the government.

The noise of the exploding bomb was terrific, and when the police rushed in the room they found the room a wreck. They at once made a search and found many documents telling of the conspiracy against the king and premier.

Wholesale arrests are expected as a result of the accidental explosion.

The prisoners will be tried in secret. They will either be executed or exiled for life.

The revolutionary movement has been growing in Portugal ever since the king refused to abdicate. Had not the bomb exploded accidentally the king would certainly have been assassinated, according to the police.

"DREADNAUGHT" AUTOS.

Chicago Arranging to Build Mammoth Machines.

Chicago, Aug. 24.—The city of Chicago is building an automobile, which it is promised will be to other automobiles what the English battleship Dreadnaught is to other naval vessels.

It is on account of th eauto's size that the city is doing the work itself, as special patterns had to be made for it. The machine is to be used as a police patrol wagon. It is to be of steel body, seventy-horsepower, and large enough to carry 18 policemen and the chauffeur.

The use expected to be made of the vehicle is to carry a good-sized squad of policemen to any point where there is more serious trouble than the men immediately available can handle.

It will be able to go much faster than the present patrol wagons, and carry more men.

GAYNOR CRITICALLY ILL.

[M]ay Not Live Long Unless Removed from Jail.

New York, Aug. 24.—Advices from [Ja]con state that John F. Gaynor, [a] Syracuse contractor who was con[vic]ted of complicity in the Savannah [fra]uds, is critically ill.

[H]e has been ill for some time and [phy]sicians say he cannot live long [unl]ess removed from the jail. He [is] racked by coughing spells and has [part]ically lost the use of his legs.

Mrs. Ryan Made Countess.

New York, Aug. 24.—Information reached here from Rome that Pius X has bestowed the title [of] countess on Mrs. Thomas F. Ryan, wife of the well known financier, in recognition of her charities [and] benefactions to the church. The [title], it is understood, was bestowed last December, but the fact did not become publicly known until now. Mr. Ryan's Gifts to the church and [charity], it is stated, ran into mil-

MR. BURKHIM'S GIFT.

Presented Handsome Picture to Gainesville Lodge of Elks.

One of the pleasant features of the session of Gainesville Lodge No. 999, Benevolent and Protective Order of Elks, on Thursday night, was the presentation by L. J. Burkhim of a handsome steel engraving of an Elk's head and shoulders, three by five feet, in a magnificent frame.

This picture is one of the finest of its kind ever seen in Florida, or anywhere else for that matter, and was secured by Mr. Burkhim, who is an enthusiastic member of the local lodge, at considerable expense.

The presentation came as a great surprise to the members of the local lodge, who are endeavoring to furnish their club room with "the best what am." It is a magnificent picture, and was secured by Mr. Burkhim during his recent visit to the North, and this showed that Mr. Burkhim remembered his brethren and his lodge at home. He had an opportunity to secure this extraordinary picture, and "jumped" at the opportunity with an alertness which will always be appreciated.

In a short but very impressive talk, Mr. Burkhim presented the picture to the lodge. While he was speaking the entire membership present listened with an ear of earnestness and interest, and at the conclusion the donor received a round of deserved applause.

Hon. Henry S. Chubb, exalted ruler of Gainesville lodge, responded in a most delightful way, which is his own. He told of how the lodge, collectively and individually, appreciated the gift, which was one of the handsomest ever received.

SEA ISLAND COTTON.

Savannah, Ga., August 24.—Transactions in the Sea Island cotton the past week were moderate. The receipt of local stocks resulted in an addition of 263 bales to the previous count. Much interest was manifested in the arrival of the first bale of Sea Island, which occurred on August 20, two days later than for the previous year. The bale was from Florida. On August 18 of last year a bale arrived from both Georgia and Florida. The first bale this season made a most favorable impression as to the crop. Some complaints were made during the week of damage likely to result from too much rain, shedding being feared. With good weather the coming week, this will probably have a very limited effect, but with continued rains much injury will undoubtedly result.

New Gainesville Directory.

Jesse E. Burts, publisher of the Gainesville Directory, is now working on the edition for 1907-8, but, owing to the great amount of work on this number, the same will not be before the public until the first of October.

Like the directory for 1905-6, this will be a work of art, and will prove of great benefit to the public, especially since there has been so many changes and extensions to the charter, etc. The book will necessarily contain a greater number of pages than the current number, occasioned by the rapid growth of the city.

Sunday School Party.

A pleasant Sunday school party was held at the home of Mrs. A. A. Taylor, Rocky Point, Friday evening. There was a good crowd present, and the evening was passed in a most enjoyable manner, the principal features being games and music.

The Rocky Point Sunday school is a union school, but is a large one, aggregating fifty-three members.

STRANGLER'S MA[RK]

Were Found on the Th[roat] Murdered Widow.

MYSTERY SHROUDS [THE]

Body of a Young Widow Found in Her Apartments with Skull [Crushed] and Visible Marks of Having Been Strangled.

New York, Aug. 24.—The police arrested three men in connection to find the murderer of Mrs. Beham, a young widow, whose body was found in her apartments in [Flush]ing avenue, Brooklyn, with the skull crushed, the arteries in one wrist severed and marks of a strangler's hands on her throat.

A piece of gaspipe, which had been wrenched from the gas range in the kitchen, lay near the body. The police believe the murderer [struck] the blow with the gaspipe and then left the victim [to] bleed to death.

The police have no clew to the identity of the murderer, and the men under arrest are held [merely] on suspicion in the hope of [identifying] the murderer of Mrs. Beham [before] the funeral.

[Mrs. Beham was found dead] in the bedroom of her apartment [on Saturday morning], when [a friend] and neighbor called to see her. She had been dead [for] three days.

Operation Successful.

Marietta, Ga., Aug. 23.—[Hon.] Clay, a popular young lawyer [of] rietta, and a son of United [States] Senator A. S. Clay, has [recently] undergone an operation for [appen]dicitis. He is now at a [hospital] in Atlanta.

With a desire to keep up with the times, the management of the Atlantic Coast Line is having the freight and passenger station treated to a coat of fresh paint. The management is to be commended, as the improvement is very noticeable, and will add considerable to the appearance of that section of the city.

Mrs. Fernandez and children of Tampa have arrived in the city, and will make their home here. Mrs. Fernandez, who is a lady of means, being attracted by the educational advantages of Gainesville, came here for the purpose of educating her children. She is pleasantly located at the home of Mrs. L. A. Thrasher, 201 East Main street N.

Miss Bessie Howard of North Carolina, who has decided to make her home here with Mr. and Mrs. W. M. Hulbert, relatives, has accepted a position as stenographer at the Seaboard Air Line station. Miss Howard, who is possessed of a most genial disposition, is well pleased here, and will no doubt remain indefinitely, although she only came on a visit.

J. [illegible]ing, formerly with the Seaboard Air Line in this city but for the past two years agent for the Atlantic Coast Line and merchant at Clark, has returned to his home, after two or three days spent pleasantly here with friends. Mr. Manning, as was noted upon his arrival, has just returned from Virginia and North Carolina, where he spent a few days pleasantly.

A card received from Mrs. W. E. Dow, dated Abbeville, S. C., states that Mr. Dow is doing finely, and that herself and W. E., Jr., are enjoying good health. They expect to spend a

J. A. J. Strickland and son, William, of Hague, were in the city yesterday. Mr. Strickland states that the recent rains have almost ruined the crops of the farmers in his section, as the lands have been flooded. Cotton appears to have particularly suffered, as there was a great deal of the staple open in the field.

The Sunday School Mission and Convention of the Santa Fe River Association of the Baptist Church is now in session at the First Baptist church. Services are being held at 9:30 a. m. to noon, and in the afternoon from 2:30 to 4 o'clock. There is a good attendance and much interest is manifested in the proceedings.

J. D. Jones, a substantial farmer of the Alachua section, was among those who came to Gainesville yesterday, and while here called to have The Sun sent to his address. Mr. Jones reports an abundance of rain in his section—in fact, more than is needed, as the cotton crop has been damaged to a considerable extent.

Miss Kittie LaFontisee leaves today for Miami, where she will have charge of the primary department of the public school for the ensuing term. Miss LaFontisee is one of the very best primary teachers in the State, and her services are always sought by the best schools in the State. Her many friends trust that she will be pleased with her new position.

Chas. Fisher has returned from points in Alabama, and will enter the University here.

W. E. Brown, formerly of this city but now of Archer, was among those who spent yesterday in Gainesville.

Unique Law Suit.

Toledo, Ohio, Aug. 24.—A colt forms the basis of a unique suit filed here against the Lake Shore and Michigan Southern railroad by Welborn Snyder, a postal clerk. The plaintiff alleges that he was compelled to ride between Cleveland and Toledo in a car which was insufficiently heated, and that it gave him a cold, which was followed by pneumonia, and finally developed into consumption. He demands the sum of $50,000. This is the first suit of the kind filed in Ohio, it is said.

Murdered for His Money.

Chicago, Ills., Aug. 23.—The body of Evandor McIver, a wealthy contractor residing on Prairie avenue, was found Thursday in a stairway leading to a base ment at the corner of Twenty-fifth and State streets. There were marks of violence on the body, all of the money and valuables had been taken and it is the opinion of the police that McIver was murdered and thrown down the stairs. Death had evidently been caused by a blow on the head that had fractured the skull.

Our warships will merely patrol the porte where its necessary to organize the international police in fulfillment of the understanding reached at Algiers. France and Spain are in complete accord."

Fairbanks Can't Visit Atlanta.

Atlanta, Aug. 24.—Vice president Charles W. Fairbanks, candidate for the republican nomination for the presidency, cannot attend the state fair in Atlanta between October 10 and 26. Secretary Weldon, of the Georgia State Fair association, received a letter from the vice president Thursday stating that previous engagements for the month of October would prevent him from accepting.

Atlanta Elected Imperial Azam.

Colorado Springs, Colo., Aug. 24.—G. Eubanks, of Atlanta, has been elected as imperial azam of the Knights of Khorassan of the World. Seattle was selected as the next place of meeting.

CONSPIRACY EXPOSED

Plotters Were Mangled by Explosion of Their Own Bomb.

PLOT AGAINST KING CARLOS

Premature Explosion at Lisbon Kills Two Persons and Reveals to Police Designs Upon the Lives of the King and Queen.

Lisbon, Aug. 24.—The explosion of a bomb here which killed two persons and fatally injured two others, brought to light a plot, hatched by republican conspirators to assassinate King Carols and Premier Franco and to seize the government of Portugal.

The police allege that the head of the conspiracy is Jesse Bettencourt, a medical student.

On searching his apartments they found a number of letters and papers which resulted in the arrest of 30 Republican leaders. They have been placed on ships and under heavy guard.

Bettencourt lives in the tenement district of the city, and his rooms have been the headquarters for republican agitators and conspirators.

The explosion took place in Bettencourt's room and the men killed and those injured were conspirators against the king and the government.

The noise of the exploding bomb was terrific, and when the police rushed in the room they found the room a wreck. They at once made a search and found many documents telling of the conspiracy against the king and premier.

Wholesale arrests are expected as a result of the accidental explosion.

The prisoners will be tried in secret. They will either be executed or exiled for life.

The revolutionary movement has been growing in Portugal ever since the king refused to abdicate. Had not the bomb exploded accidentally the king would certainly have been assassinated, according to the police.

"DREADNAUGHT" AUTOS.

Chicago Arranging to Build Mammoth Machines.

Chicago, Aug. 24.—The city of Chicago is building an automobile, which it is promised will be to other automobiles what the English battleship Dreadnaught is to other naval vessels.

It is on account of th eauto's size that the city is doing the work itself, as special patterns had to be made for it. The machine is to be used as a police patrol wagon. It is to be of steel body, seventy-horsepower, and large enough to carry 18 policemen and the chauffeur.

The use expected to be made of the vehicle is to carry a good-sized squad of policemen to any point where there is more serious trouble than the men immediately available can handle.

It will be able to go much faster than the present patrol wagons, and carry more men.

GAYNOR CRITICALLY ILL.

May Not Live Long Unless Removed from Jail.

New York, Aug. 24.—Advices from Macon state that John F. Gaynor, the Syracuse contractor who was convicted of complicity in the Savannah frauds, is critically ill.

He has been ill for some time and physicians say he cannot live long unless removed from the jail. He is racked by coughing spells and has practically lost the use of his legs.

Mrs. Ryan Made Countess.

New York, Aug. 24.—Information has reached here from Rome that Pope Pius X has bestowed the title of countess on Mrs. Thomas F. Ryan, wife of the well known financier, in recognition of her charities and benefactions to the church. The title, it is understood, was bestowed last December, but the fact did not become publicly known until now. Mrs. Ryan's Gifts to the church and charity, it is stated, run into millions.

MR. BURKHIM'S GIFT.

Presented Handsome Picture to Gainesville Lodge of Elks.

One of the pleasant features of the session of Gainesville Lodge No. 999, Benevolent and Protective Order of Elks, on Thursday night, was the presentation by L. J. Birkhim of a handsome steel engraving of an Elk's head and shoulders, three by five feet, in a magnificent frame.

This picture is one of the finest of its kind ever seen in Florida, or anywhere else for that matter, and was secured by Mr. Burkhim, who is an enthusiastic member of the local lodge, at considerable expense.

The presentation came as a great surprise to the members of the local lodge, who are endeavoring to furnish their club room with "the best what am." It is a magnificent picture, and was secured by Mr. Burkhim during his recent visit to the North, and this showed that Mr. Burkhim remembered his brethren and his lodge at home. He had an opportunity to secure this extraordinary picture, and "jumped" at the opportunity with an alertness which will always be appreciated.

In a short but very impressive talk, Mr. Burkhim presented the picture to the lodge. While he was speaking the entire membership present listened with an ear of earnestness and interest, and at the conclusion the donor received a round of deserved applause.

Hon. Henry S. Chubb, exalted ruler of Gainesville lodge, responded in a most delightful way, which in his own. He told of how the lodge, collectively and individually, appreciated the gift, which was one of the handsomest ever received.

SEA ISLAND COTTON.

Savannah, Ga., August 24.—Transactions in the Sea-Island cotton [illegible] past week were [illegible]. The receipt of local stock resulted in an addition of 203 bales to the previous count. Much interest was manifested in the arrival of the first bale of the Island, which occurred on August 24, two days later than for the previous year. The bale was from Florida. On August 18 of last year a bale arrived from both Georgia and Florida. The first bale this season made a most favorable impression as to the crop. Some complaints were made during the week of damage likely to result from too much rain, shedding being feared. With good weather the coming week, this will probably have a very limited effect, but with continued rains much injury will undoubtedly result.

New Gainesville Directory.

Jesse R. Burts, publisher of the Gainesville Directory, is now working on the edition for 1907-8, but, owing to the great amount of work on this number, the same will not be before the public until the first of October.

Like the directory for 1906-7, this will be a work of art, and will prove of great benefit to the public, especially since there has been so many changes and extensions to the charter, etc. The book will necessarily contain a greater number of pages than the current number, occasioned by the rapid growth of the city.

HAS BECOME A BENEDICT.

John Shea Married to Miss Lizzie Basey in Jacksonville Tuesday.

From Friday's Daily Sun:

The Sun contained an item several days ago stating that John Shea, the efficient linotype operator in the employ of this paper, had gone to Jacksonville to take unto himself a wife, and The Metropolis of the 21st inst. has the following, which will prove of interest here:

"Mr. John Shea, the efficient linotype operator of The Gainesville Sun, took unto himself a wife yesterday in the person of Miss Lizzie Basey of Indianapolis, Ind., the ceremony having been performed in this city by the Rev. Father Maher at his residence on East Duval street.

"Mr. Shea has been spending a couple of weeks in Jacksonville, and was joined here yesterday by the prospective bride.

"Mr. Shea, although a comparative newcomer in Gainesville, has made many friends both there and in Jacksonville. He is a young man of excellent character, genial disposition, and is quite popular with those who have met him.

"The Sun and The Metropolis, with all his friends, join in extending congratulations to the newly wedded couple."

Mr. Shea's numerous friends in Gainesville will join The Sun in extending congratulations, with the wish that their life of connubial bliss will be a long one.

After spending a few days at Pablo Beach, Mr. and Mrs. Shea will return to their future home here, and they will be welcomed gladly.

HAD AN AWFUL TIME.

But Chamberlain's Colic, Cholera and Diarrhoea Remedy Cured Him.

It is with pleasure that I give you this unsolicited testimonial. About a year ago when I had a severe case of measles I got caught out in a hard rain and the measles settled in my stomach and bowels. I had an awful time and had it not been for the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy I could not have possibly lived but a few hours longer, but thanks to this remedy I am now strong and well. I have written the above through simple gratitude and I shall always speak a good word for this remedy.—SAM H. GWIN, Concord, Ga. For sale by all druggists.

Delightful Straw Ride.

A delightful straw ride was participated in Wednesday night by a number of Gainesville's young people, the party being chaperoned by Mrs. W .P. Coffey.

The party went to the Millhopper, where a delightful lunch was spread, and, after an hour or so spent pleasantly, they returned to the city, reaching here about midnight.

Those on the trip were delighted and are under obligations to Mrs. Coffey for her kindness in accompanying them.

JUDGE SYD CARTER BRINGS GOOD NEWS

Says Work on Science Hall At University Will Begin Soon.

FUNDS WILL BE AVAILABLE.

Boards of State Institutions and Control Met in Joint Session in Tallahassee Wednesday, and Everything Worked Harmoniously.

Judge Syd L. Carter, who passed through the city from Tallahassee on a brief visit to his family Friday, left in the afternoon for the Everglades, where he will investigate the work being done under the direction of the trustees of the Internal Improvement Fund.

The representative of the Sun called on Jugde Carter, and found him in his usual good mood.

Judge Carter stated that at a meeting of the Board of State Institutions with the Board of Control, held in Tallahassee last Wednesday morning, all difficulties were harmonized, and matters in reference to the State schools were now running smoothly.

"The building to replace the burned dormitory of the Women's College at Tallahassee will be replaced at once," Judge Carter declared. "Also the work on the campus at the University will proceed to a finish, and the Board of Control will commence the erection of Science Hall on the University grounds early in the spring."

It is confidently believed, says Jugde Carter, that there will be sufficient funds available within the year to take care of all the school appropriation, as, largely through the efforts of Alachua's representation, the school appropriations have preference over all other special appropriations.

MAN WAS BURNED SEVERELY

While Repairing Boiler Gus Tipple Received Painful Injury.

While repairing a boiler at the waterworks plant Thursday, Gus Tipple, colored, an employe of the water works, who is well known in this city, was severely scalded by escaping steam, which came upon him suddenly through a broken joint.

Tipple was dazed and blinded by the escaping steam for an instant, and had it not been for his presence of mind he would have been cooked to death in a short while; but, realizing the situation, he immediately quit the boiler. As it was, however, he sustained most painful scalds which will confine him to his bed for several days.

Dr. Colson was summoned and rendered professional aid. He reports that the burns, while not dangerous, are of a nature which will give the patient considerable pain for the next week or ten days.

Remedy for Diarrhoea—Never Known to Fail.

"I want to say a few words for Chamberlain's Colic, Cholera and Diarrhoea Remedy. I have used this preparation in my family for the past five years and have recommended it to a number of people in York county and have never known it to fail to effect a cure in any instance. I feel that I cannot say too much for the best remedy of the kind in the world."—S. JEMISON, Spring Grove, New York County, Pa. This remedy is for sale by all druggists.

Pleasant Informal Occasion.

A few friends "incidentally" made a call at the home of Miss Lenora Vidal Wednesday evening, which was a most agreeable surprise to the young lady. She was equal to the occasion, however, and entertained her "pop" callers in her usual clever manner.

The evening was spent in games and music, and incidentally Miss Vidal served delicious refreshments. All felt good for coming, and, inasmuch as they were treated so hospitably this time, may decide to make another call at no distant day.

STATE POSTMASTERS WILL CONVENE HERE

Convention of Fourth Class Will be Held in Gainesville.

A GOOD CROWD IS EXPECTED.

Postmaster Lynch Believes That This Will Prove One of the Most Successful State Conventions of Postmasters Ever Held in Florida.

Gainesville, the "Convention City," as it has been properly dubbed, is to entertain another State convention being the annual meeting of the Florida postmasters of the fourth class.

There will, in all probability, be from 150 to 200 postmasters of the State in attendance, and these will be entertained by the people of Gainesville in the usual hospitable manner.

The convention will be called to order on Tuesday, September 24, and will continue for two or three days, owing to the amount of business before the meeting.

The place of meeting has not yet been determined on, but it will be arranged later by Postmaster Louis C. Lynch, who is jubilant over the anticipation of meeting so many of his fellow postmasters here.

This convention means a great deal to Gainesville, as the delegates will compose a class of people who are among the best in their respective sections. With the exception of an educational convention, there will probably be found in this assembly an aggregation of intellect seldom found in gatherings of other kinds, and the people of Gainesville are bound to show their appreciation of their presence by entertaining them.

President Weeks' Circular.

Postmaster George M. Weeks of Glen St. Mary, President of the Florida State League, has issued the following circular relative to the convention.

"We have arranged to hold our annual State convention of postmasters of Fourth-Class Offices at Gainesville, Fla., on September 24, and all delegates and all postmasters who can possibly get there will be cordially welcomed, and we will try to have a very interesting and profitable meeting. Of course it will depend largely on the interest taken by the postmasters of the State whether our meeting is a success or a failure, for if only a very few think it necessary or worth their while to make a little extra effort or sacrifice in order to attend, the meeting will not be such a grand success as it otherwise will be if every postmaster of a fourth class office will make an effort to be there.

"It is for the good of the service and also for our own good to meet together at least once a year and exchange ideas and listen to those who are qualified to instruct and advise us.

"At our annual meeting last year there were but few postmasters who took interest enough in the work of the League to be present and I earnestly hope that such will not be the case this year when we meet in Gainesville. The place of meeting has not yet been arranged for, but I will suggest that all postmasters who come to the meeting report at the postoffice as soon as they arrive in the city, and they will be informed where the meeting is to be held.

"We expect to have several speakers from a distance who are alive to the issues of the day, and who will entertain and instruct all who honor them and us with their presence on that occasion

"In concluding this letter I would again repeat what I before said, urging every postmaster in the State to be at the meeting in Gainesville on September 24, 1907.

"Yours fraternally,
"GEO. M. WEEKS
"State President,
"Glen Saint Mary, Fla."

Postmaster Lynch, in speaking of the coming convention, to a representative of The Sun, declared that he believed it would prove the most beneficial and enthusiastic ever held in the State. "There used to be a time," said Postmaster Lynch, "when a fourth-class postmaster held his job in a practical way. He always attended to what business came to him through a voluntary source, and attended to it promptly and correctly; but since Florida has grown to be a State of such vast resources, there has sprung up within the past few years a friendly rivalry among the postmasters of the various sections in an endeavor to secure the greatest amount of business during a fiscal year, and this interest is not only kept up, but is increasing. It is a good thing, mutually for the Government, the postmaster and the people, for it gives the postmaster the advantage of a modern system, the Government the benefit of additional receipts eminating therefrom, and the public a more efficient and ambitious service."

Postmaster Lynch states that it is the duty of the people of Gainesville to entertain these delegates, and anyone who is willing to take a delegate or more during the convention may confer with him.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

...out of order or diseased... become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these interesting ills. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of **Swamp-Root** is soon realized. It is sold by druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle

THE CITY COUNCIL.

Ordinance Regulating Drainage Passed on Final Reading.

At an adjourned meeting of City Council, held Wednesday afternoon, the ordinance regulating the plumbing and house-drainage was placed upon its third reading and passed, including the title. It will therefore become a law as soon as it has received the signature of Mayor Thomas.

This ordinance was a lengthy document, containing forty-seven sections, and it required Clerk Dell nearly two hours to complete the reading of same, each section being subject to amendment, etc.

At this meeting a request of B. R. Colson, which was presented in the nature of a resolution, to accept a plat of College Park as same had been drafted by the College Park Co., brought about considerable discussion. The question, however, finally resulted in a motion of Alderman Vidal that the matter be referred to the city attorney for his written opinion as to how to proceed.

The Council then adjourned.

REVIVAL AT WILLISTON.

Rev. T. J. Nixon Has Been Assisting in Series of Meetings There.

Rev. Thomas J. Nixon, pastor of the First Methodist church in this city, has returned from Williston, where for the past three of four days he has been assisting Rev. A. M. Daiger, pastor of that church, in a revival.

Mr. Nixon states that the meeting has been quite a success, in point of attendance, as in every other way, and that considerable good has resulted from the same.

The meetings will continue up to and including Sunday.

THE FOUR BANKS HAVE MONEY PLENTY

Deposits at Gainesville National Over $70,000 First Month.

DEPOSITS AT THE OTHER BANKS

Were Also Good, Being Better Than at Any Corresponding Period for Several Years—All Banks Report a Prosperous All-Round Business.

"We feel very much gratified over the business of the Gainesville National for the first month," remarked Cashier Charles A. Faircloth to The Sun representative Thursday afternoon, just after the close of business.

"We have been open for business just one month today, and our books will show deposits amounting to more than $70,000, which is good enough for any 'youngster' of only a month old" Mr. Faircloth concluded.

The Gainesville National has not yet gotten its interior in shape, and workmen are engaged steadily in laying the handsome tiling floor, flushing up the walls, etc., but, notwithstanding this fact, the new institution is enjoying a fine patronage.

This is the best evidence that this country was never more prosperous, as all four banks of the city never enjoyed a more prosperous season. President Thomas of the Dutton Bank, Cashier Taylor of the First National and Messrs Phifer Bros., bankers, reporting fine business for the month just closing.

ARTHUR DOYLE'S MARRIAGE.

Interesting Account of the Function From Georgia Paper.

The Perry (Ga.) Journal, of the 22d inst., has the following to say regarding the marriage of Arthur J. Doyle, one of Florida's popular young men, and Miss Mary Norwood, a popular young lady of Perry, which will be of interest to Mr. Doyle's friends in this section:

"A marriage of much interest was that of Miss Mary Norwood, youngest daughter of Mr. and Mrs. W. H. Norwood, to Mr. Arthur J. Doyle of Jacksonville, Fla., which occurred August 15, at 10 o'clock a. m., at the residence of the bride's parents, Rev. J. W. Arnold officiating.

"Miss Annie Woodward of Perry, Mr. Fred Doyle of Jacksonville, Fla., Miss Elizabeth Riley of Perry, and Mr. W. D. Sapp of Jacksonville, Fla., were the attendants, with little Misses Aurelia Cooper and Martha Riley, both of Perry, as flower girls.

"Miss Louise Riley sang 'I'd Live or I Would Die for You.' Miss Bessie Houser played the wedding march, and during the ceremony she played soft strains of music.

"The attendants entered from the rear of the reception hall, followed by the flower girls, scattering pink and white rose petals, preceding the bride and groom, and forming a semi-circle before a bank of palms and roses which, together with happy faces, made a picture long to be remembered.

"The bride was becomingly gowned in a stylish traveling suit of tan, and under a jaunty coat she wore a cluny lace waist of same shade. Carrying a shower boquet of white asters and ferns, and being of a brunette type, she was never more handsome than on this occasion.

"The bridesmaids wore white lingerie gowns elaborately trimmed in lace, and carried boquets of pink asters. The flower girls were fairy-like in fluffy, white lace-trimmed frocks.

"After congratulations and adieus, they left for Daytona Beach, Fla., and other places of interest."

S. S. S. REMOVES BLOOD HUMO

When the blood is pure and healthy the skin will be soft, smooth ... free from eruptions, but when the blood becomes infected with some ... condition the fact is shown by pimples, eruptions, boils and ... other disfiguring and annoying skin disease. The skin is provided with countless pores and glands which act as a drainage system to rid the blood of impurities through the perspiration that is constantly passing through these little tubes. There are other glands that pour out on the skin an oily substance to keep it soft and pliable. When the blood becomes filled with humors and acids these are thrown off through the pores and glands, burning and irritating the skin and drying up the natural oils so that we have not only Acne, Eczema, Salt Rheum, etc., but such dry, scaly skin affections as Tetter, Psoriasis, and kindred troubles. The treatment of these troubles with salves, washes, lotions, etc. is not along the right line. Such treatment relieves some of the itching and discomfort and aids in keeping the skin clear, but it does not reach the real cause of the trouble. There are humors in the blood, and it can therefore have no real curative effect on these skin affections. S. S. S., a gentle acting and perfect blood purifier, is the best and quickest treatment. It goes down into the blood and forces out the humors, fiery acids and poisons from the circulation, cools the heated blood, and by sending a fresh stream of nourishing blood to the skin permanently cures skin diseases of every character. S. S. S. is made entirely of health producing roots, herbs and barks, and is an absolutely safe tonic for young or old. S. S. S. cures Eczema, Acne, Salt Rheum, Tetter, Psoriasis, and all other disagreeable and unsightly eruptions of the skin. Our book on Skin Diseases and any medical advice desired furnished free to all who write. THE SWIFT SPECIFIC CO., ATLANTA, GA.

THE NATIONAL CAPITAL.

Washington, D. C., August 22.—There appears to be a growing feeling that the vigorous campaign against the trusts should be called off, and an inventory taken of the situation as it is today. It is believed that a continuance of the agitation will beget such fear on the part of capital, represented by the investing public, that a panic may result, with its attending financial disasters. This feeling is being accentuated by the fact that sound and stable securities are now beginning to feel the effect of the uneasiness over the situation. Needless to say the financiers of the country would welcome such a change of scene. But it is a serious question whether things have not gone so far that there can now be no check. The astounding revelations of the past few years of graft and corruption in official circles and the exposure of the methods of the predatory trusts and piratical corporations have so awakened the public conscience and fostered the feeling of outraged individual rights that there is now a deep-seated determination by the people to have a general house-cleaning. President Roosevelt's repeated dissertations on personal, political, and business honesty have worked as a leaven, but the people are now keenly alive to their rights and their powers, as exampled, for instance, by the vigorous efforts of the legislatures of many States to remedy matters. We are, it is believed, on the verge of a social and business revolution which will place in power only such representatives of the people as have shown their worth, and which will eliminate the harmful corporations and do away with machine organizations.

This, then, is likely to result in two distinct tides of opposing political sentiments, one comprising the West and the South and the masses of the large cities, insisting upon a vigorous prosecution of the trusts, and the other made up of the East and the business interests, clamoring for more conservative action. It would, therefore, not be surprising to see two new political parties—the radicals and the conservatives—have their inception in such a situation. In such an event, party lines would be forgotten, and Democrats would be found voting with Republicans, and vice versa.

The telegraph operators of the country are now basking in the limelight of popular attention. Their tie-up appears to be very complete, while, of course, the business men and the general public are the innocent sufferers, as usual. Will history repeat itself, and the great strike of 1907 go down to defeat, as was the case in 1883? Let it be hoped that after the first enthusiasm wears off sane counsel will prevail on both sides, and the arbitration will result in justice to the companies, the operators, and the general public.

Apropos of the strike, the Department of Commerce and Labor has just completed a compilation of strikes and lockouts throughout the country during the last five years, from which it appears that the employes succeeded in winning 47.94 per cent. of the strikes, and the employers who locked out their men won 57.20 per cent. of the cases. There thus appears to be even chances of either side winning.

One topic of interest that will be the subject of much discussion among diplomatic circles this winter will be the contemplated federation of the five Central American republics under one government. Several conferences with this end in view have already been held, and it is well understood that both the United States and the government of Mexico favor the project. If the thing goes through, as anticipated, there will be less thouble in the Panama region, and an era of peace and prosperity will settle on the hitherto more or less fractious Central American States.

The Interstate Commerce Commission will soon report upon the block signal and electrical possibilities of our railroads, and it may be assumed the railroads will act accordingly. The roads are making strides towards safety within as well as without. Much may be gained by the adoption of the side entrance instead of the old end arrangement, and the making of all passenger cars of steel construction, so as to eliminate the possibility of fire. Let us hope that other improvements will be considered without reference to the Interstate Commerce Commission, as such acts will do more to restore public confidence in railway travel than all the statutes that can be placed upon the books.

The late war between Russia and Japan is over. The Russian and Japanese Ambassadors, over whom the State Department has had fits in trying to keep separated, came to the State Department together in relation to the treaty recently enacted by the respective countries. Both Ambassadors had come from their summer homes for the purpose of filing the treaty with the State Department, and from the looks of things another war between the two countries is about two million years off.

CROSSING OF LEGS INJURIOUS.

A most injurious habit, common alike to men and women, is that of sitting with one leg swung over the knee of the other. Headaches, cold feet, varicose veins, ulcers, and many other discomforts attendant on an imperfect circulation of the blood are directly traceable to this habit, says The September Delineator.

When the right leg is swung over the left knee the whole weight is sustained by this knee placing all the pressure against the under part of the right leg between the calf and the knee-cap. At this very place are a great number of large veins, arteries and nerves; the pressure of them crowds all the tissues together and materially interferes with the circulation of the blood, and the disturbance of nature's processes manifests itself in many bodily evils and inconveniences. Many who would not be guilty of crossing the legs in public often surrender to the temporary comfort of the position in the seclusion of their own rooms. It is wrong and injurious because it defies nature, whose laws are more imperative than those of society.

In speaking of the passing of the "third house" followers from power in Florida affairs, The DeLand News says: "While in Jacksonville a few days ago, the writer saw one of the late haughty members of the third house—a man who kicked about the menu at the Windsor—eating at a 15-cent restaurant, where, three years ago, he would not have bought a cigar, nor stepped in to have his shoes shined. The people are coming into their own—and, in matters like the direct nomination of candidates, they will never again relinquish the power they have tasted."

It is said that there are over 100 agents for the Department of Justice who are working in Chicago upon the railroads centering there, and the packing-house companies, and are watching every move that is made with a view to ascertaining whether the corporation laws are being observed. It is believed that the Government is weary of getting evidence against corporations in return for immunity, and has adopted this method of getting first-hand information.

THE "RED DEVIL'S" ROUTE.

Paul McCormick, a young millionaire of New York, bore an honorable name and had advantages in life that few young men have. From the earliest days of auto racing this graceless scion of one of the richest and oldest families in Poughkeepsie became a speed fiend, and many were the accidents he met with and many were the fines he paid. His reckless driving won the admiration of Mrs. Carrie Converse, the wife of a wealthy merchant and a leader in society, and four years ago she eloped with young McCormick in his "Red Devil," and they toured the country at breakneck speed, having many hair-breadth escapes and being many times arrested for reckless speeding.

The husband, after the manner of husbands in the East, sued McCormick for $100,000 damages and his wife for divorce. McCormick finally paid $5,000 for the release of Mrs. Converse from her marriage vows and married her himself. Although socially ostracised, they maintained a town house and a summer home and spent much of their time in the "Red Devil."

A few days ago they started from New Haven to New York in a six-cylinder racer and when an eighty-horse power auto appeared on the scene a race ensued. McCormick ran into a buggy, tore it to pieces, crippled the two women in it and ran his machine against a large tree which stood its ground. The woman was horribly mangled and killed instantly and McCormick was thrown fifteen feet into a field and killed. The other car did not stop to see if they were dead or not, and they were found by a farmer. Thus ended the career of this mad pair who deliberately threw away honor and respectability and who in a double sense traveled at the speed that leads to destruction. The wealth which should have made them useful enabled them to gratify their illegitimate desires, and their desires were of a kind that destroy manhood and womanhood. The "McCormick scandal" is thus ended and their death was a fitting close of their career. Their wealth did not save them from becoming social pariahs, and on the road they were a menace to innocent travelers. This ending is a tragedy that does not shock or surprise, and, while they went to their graves in costly caskets, few were the mourners at the funeral. The lesson is obvious.—Miami Metropolis.

The Starke Telegraph sums up the question of equal rights to both the people and the corporations as follows: "The sworn statement of the Florida East Coast Railway officials filed with the Railroad Commission shows that the road cleared five per cent. on the capital invested during the year 1906. An enterprising contemporary who has never built and equipped very many railroads, but who feels competent to handle such matters, figures that the East Coast management has put the cost of construction and equipment at an exorbitant figure and that the road really earned about nine per cent. Taking either the sworn statement of the railroad officials or the estimate of our contemporary, the earnings of the road do not appear to us to constitute the highway robbery that we are told the railroads are daily committing. There is not a farmer, a merchant, a banker, a miller, a publisher, or a man engaged in any other pursuit in this State who would be satisfied with a profit of either five or nine per cent. on his investment. While we are seeking to force a fair deal from the public service corporations we should be reasonable and not go to extremes, remembering that if we are to have an extension of these enterprises they must have an opportunity to make a fair rate of interest on their investments, and be assured by the existence of a fair public sentiment that they will be protected in their rights and property just as other property holders are protected."

It is said an effort will be made to have a "wet" or "dry" election called in Duval county. The commissioners of Escambia have already called such an election to be held in that county, and in the event that the move is successful in Duval, the temperance workers of Florida will have an opportunity to ascertain the attitude of the people of two of the principal whiskey-selling communities in the State. The result of the contest in these counties may have considerable weight on the recently-mentioned effort to put a constitutional amendment before the State for total prohibition

W. E. ALLEN, Auctioneer.

We extend our heartfelt sympathies to Fernandina over her losses by fire. But we cannot believe that she is other than the rest of us and a kind Providence doubtless saw that a big fire was just what was needed to give her a new lease on life. She will find the old ruts closed to her feet, the forces that kept her back will be forced to relax their grasp when the shackles crumble into ashes and from the ruins will rise a new Fernandina that will be what Fernandina should have been long ago. It is silly for a town possessed of such advantages to grumble and protest that a railroad and a few old fogies can keep her back by non-progressiveness. Let her people assume charge of their own future and make it what they will. This way of charging others with responsibility for failure and relying on others for help is something new in America—not so did our fathers build this nation.—Times-Union.

Beware of losing or wasting inches of time—they are the little foxes that run away with many days, says The September Delineator. So much can be done in them, and with them—often the very thing for which we sigh hopelessly. Fill them, every one. Keep something handy—something that fits the interval. Remember a famous law book was written because a lord chancellor chose not to be idle throughout the fifteen minutes his wife made him wait each day for dinner. Recall, too, all the men, noble and eminent, who have climbed the heights by saving inches of time. All of us cannot hope to become likewise eminent—but we can reasonably and easily make ourselves happy with things wrought in the fragmentary moments which we might unthriftily leave vacant.

MRS. CURL IMPROVING.

After Two Operations in Chicago is Regaining Her Health.

A letter received from F. S. Curl, who, with his wife, is spending a few weeks in Chicago, directs that The Sun be sent to him in that city.

In speaking of Mrs. Curl, who has been an invalid for some time, Mr. Curl says:

"Mrs. Curl has passed through her second and final operation, and is now slowly but gradually improving, but is not yet out of danger. We will have to be here for six weeks or probably two months."

Mr. Curl concludes his letter by saying that Chicago is "quite a little city," and with Florida's climate would be the ideal city of the United States.

Friends of Mrs. Curl will feel grateful that her condition is favorable, and that she will return home in much better physical condition.

NEWS OF CITY AND COUNTY CONDENSED

From Sunday's Daily Sun.

C. R. Spivey has returned from Windsor, where he has been on a visit to relatives. Upon his return he was accompanied by his daughter-in-law, Mrs. Eva Spivey, who will spend a few days here. Mr. Spivey reports that there has been an abundance of rain in the Windsor section within the past few weeks, with the result that all the creeks and branches are full.

George W. Livingston of Newberry was in the city yesterday. Mr. Livingston, who is a contractor, is now working on the new Trenton school. He has also received the contract for remodeling the home of McQueen Chaires at Old Town, and was here for the purpose of purchasing new material for the same. He states that when this home is completed it will be one of the most up-to-date in that section of the country.

Hon. H. H. McCreary returned last night from Jacksonville and Mayport, the most of the past week having been spent at the latter point. Senator McCreary joined several of his old friends in a fishing trip, and he may feel in a humor to relate some of his experiences within the next two or three days. When asked about his "luck" he replied that he had plenty of it, but that he was too weary from pulling in the "big fellows" to write or dictate any stories at this time.

Dr. Rogers Improving.

A card received from Mrs. S. B. Rogers at Atlanta, states that her husband is rapidly improving, and the physicians attending think that he will be all right in a short time.

This will be gratifying information to friends of Dr. Rogers, who have felt anxious for his condition within the past few days.

Another Fine Home.

Fen. T. McCormick has let the contract for a fine home in East Gainesville, at the head of East Church street.

This home is to cost about $3,500, and will be one of the most modern in this section. Material is now being delivered, and work will begin at once.

MARRIED IN A CARRIAGE.

Two Popular Gainesville People Had a Novel Experience.

The following from The Palatka News of current issue will prove of interest to friends of the contracting parties here:

"While Judge M. I. Coxe was engaged in conducting the preliminary examination of A. Glisson at the court house on Wednesday morning, a young man was seen to come to the head of the stairs and becon to the Judge, who immediately got up and stated that he would be obliged to adjourn court for ten or fifteen minutes, and until he could go down stairs and marry a couple. Once down stairs the young man informed the Judge that he had but five minutes to catch the East Coast train, that the prospective bride was in a carriage waiting in front of the court house and asked if his honor couldn't step to the carriage and tie the knot.

"There was no reason, so Judge Coxe had the young man get into the carriage, and, joining their hands his honor made the young people husband and wife about as quick as an ordinary man could say 'Jack Robinson.'

"By this time the crowd in the court room knew what was going on and all rushed to the windows and down the stairs to see. But the ceremony was all over. All they saw was a most attractive young lady with a smiling face and a well dressed and pleasant spoken young man, who handed the Judge his fee and told the driver to hustle for the depot.

"It seems the young man had called on the Judge earlier in the day, secured the license and asked him to be ready.

"The young people were from Gainesville and the young lady had arrived only a few minutes before on the G. S. & F. train.

"The groom was Mr. Edmond McGhee Weston and the bride was Miss Mary Elizabeth Hill. The young man was raised in this county, at Crescent City, and is the son of Mrs. Frank Rutherford."

His Warning.

"Yes," said his mother-in-law, "I expect eternal sunshine hereafter."

"Take care," said the son-in-law, "that it doesn't go to blazing!"

MAY REORGANIZE THE BAND.

Several Musicians of Gainesville Are Speaking of Reorganizing.

One of the best and most soul-stirring advertisements a town or city can have is a band—if it is a good one, the worst if it is a poor one.

But Gainesville, with a population now of 7,000, has ample talent through the various sources to organize a first-class band—an organization that would prove a credit to the city and the State, and those most wise realize that now is the time to make the start.

With this realization staring them in the face, and with that musical enthusiasm which warms their hearts, an effort is being made by a few of the old musicians to reorganize the Gainesville brass band. There is no reason why this band should not be reorganized, and it is the duty of the people of Gainesville to support it. There are many occasions where a band could be used if it could be secured on short notice and at little expense, and the Gainesville band would fill the requirements.

GOOD PROGRESS BEING MADE.

The Deep Well at Waterworks Plant Being Pushed Forward.

The contractor for the deep well at the plant of the waterworks, Bourware spring, is making fine progress, having already gone forty-five or fifty feet.

This well is twelve inches in diameter, and when completed, it is estimated, will furnish the deficiency of the supply which has been complained of for the past year or two, especially in the dry season of last summer.

Contractor Allen expects to finish his work, under favorable circumstances, within the next few weeks, when there will be no more of the cry of the shortage of water from consumers.

Building a New Home.

Among other residences going up in the East Gainesville section is the home of John Chesser, Seventh street.

This home will contain about five rooms, but will be modern in every respect. Mr. Chesser believes in a good, comfortable home, and is erecting this after his own ideas and plans.

A RUNAWAY HORSE.

Serious Accident to J. R. Emerson Was Narrowly Averted.

While driving in from his roadwork on the Prairie Creek road Thursday afternoon, Supervisor J. R. Emerson had an experience which he will not soon forget, as it came near costing him his life.

Mr. Emerson has been superintending the work of road construction on the Prairie Creek road for several weeks. He resides in the city and has the habit of coming home at night. While coming on the date mentioned his horse was frightened at an approaching automobile and made a dash, and before the occupant of the buggy was really aware of what had happened he was in a ditch and the animal was on the way to the stable.

The horse left pieces of the buggy at various points, as evidence that he had "been there," finally winding up at the stable with the shafts. However, Mr. Emerson was fortunate enough to catch an incoming carriage, which overtook him after he had walked a mile.

MISS DAVIS AS A TEACHER.

Brings a Fine Certificate From One of Best States in the Union.

Miss Elsie Davis, who arrived Thursday from her home in Big Rock, Ill., near Chicago, for the purpose of teaching in Alachua county, and who has already been assigned on the faculty of the Waldo High School, is one of the best, so her recommendations from the State Educational Board of Illinois says. Miss Davis is a lady of excellent refinement, clever in disposition, and is bound to prove popular among those with whom she is associated.

Miss Davis comes with the highest recommendations from a high authority, and County Superintendent Kelley looks on her coming as one of the educational blessings to the county.

Early Morning Comet.

For the information of those who rise early, we will state that a comet is visible in the east about 3 o'clock each morning. The comet at this time is quite dim, but is plainly visible to those who have good eyesight and look closely.

MR. HODGSON HAD TO GO.

Man Operating the Stump Puller Compelled to Leave for His Home.

T. L. Hodgson of Williston, who has been engaged in pulling trees and stumps and clearing the right-of-way on the Gainesville-Prairie Creek road with his stump-puller, was called home Friday by an important letter, and may not return to Gainesville and his duties for several days.

This will not interfere seriously, however, with the work on the road, as Mr. Hodgson and his stump-pulling machine have been so energetic for the past few days that they have succeeded in clearing the way for the road gang which will keep them busy for the next three or four days.

Mr. Hodgson believes he has got stump-pulling down to a fine point, and he is right, judging from what The Sun representative saw him do on Wednesday. It is no trouble to keep a right-of-way cleared in the manner in which he does it.

Stork Visits Morris Home.

A letter has been received in this city announcing the birth to Rev. and Mrs. R. H. Morris, in Philadelphia, of a fine girl.

Dr. Morris, who is the pastor of a Presbyterian church in Philadelphia, is a brother of George D. Morris in this city. He resided for many years in Waldo, and has many friends in this section who will extend congratulations.

Children's Day Kids.

Little Miss Gwendolyn Hale, daughter of Mr. and Mrs. J. H. Hale, entertained a delightful dog ride around the city Thursday evening, in honor of the little Misses Mina and Ruth Hale of Live Oak, who have been here on a visit to relatives.

A long dog was secured, and the little folks enjoyed the ride immensely.

REPUBLICAN BOSSES HAD A CONFERENCE

Coombs, Chubb and Cheney Were Closeted in Jacksonville.

THE U. S. JUDGESHIP MATTER

Is Supposed to Be the Question Under Consideration—These Leaders, Who Are Close to President, Confident of Sheppard's Appointment.

That the Republican State organization is earnest, faithful and persistent in the matter of carrying its point, is demonstrated by the frequent trips to Washington and other points, and the closeted sessions of the leaders of the organization.

The Metropolis of Wednesday has the following, which will prove of interest to the people of the Northern District of Florida:

"The Hon. J. N. Coombs of Apalachicola, Republican National Committeeman; the Hon. Henry S. Chubb of Gainesville, chairman of the Republican State Committee, and the Hon. W. H. Cheney of Orlando, United States Attorney for the Southern District of Florida, were in conference at the Windsor Hotel in this city.

"Messrs. Coombs and Chubb left this morning for their respective homes. The chief result of their private conference at the Windsor Hotel could not be learned. Mr. Coombs and Mr. Chubb arrived yesterday morning. Mr. Cheney had just returned from Washington, D. C., in the interest of the Hon. William B. Sheppard, candidate for the United States District Judgeship of the Northern District of Florida.

"Mr. Coombs is perfectly satisfied with the attitude of the Attorney-General, Mr. Sheppard, and feels confident that the President will be guided by the Attorney-General in the matter.

"Messrs. Coombs, Chubb and Cheney are all very close to the President, are all of the opinion that Mr. Sheppard will be the next United States District Judge of the Northern District of Florida.

"The conference, seems to be a foregone conclusion that Mr. Sheppard will get the place.

"The appointment will probably be made by the President at an early date."

JUPITER JOTTINGS.

Jupiter, August 23.—Lightning hit the dwelling house of F. S. Sanches near Juno, Monday, setting a bed on fire and killing a dog. It stunned a number present, but none of Mr. Sanchez's family was hurt.

Rev. J. W. Martin has been conducting a protracted meeting here this week, assisted by Rev. J. K. Shofstall. They baptized six this morning in Jordan's Basin, near here, five women and five men. Four have been received by letter, making fourteen in all to date, and more are expected to join before the meeting closes.

The farmers are getting very busy now picking cotton and gathering corn. Some of them report that their cotton fields are getting white. They are all hoping to get a good price for it this year.

Eczema.

For the good of those suffering with eczema or other such trouble, I wish to say, my wife had something of that kind and after using the doctors' remedies for some time concluded to try Chamberlain's Salve, and it proved to be better than anything she had tried. For sale by all druggists

Growing Girls

Growing girls need care, advice and medicine, especially on reaching the age of puberty. A mother's tender care and words of caution will often accomplish wonders. As for medicine, a gentle, safe and reliable strengthening tonic is Wine of Cardui,

It will prevent and relieve pain, regulate the functions, clear the complexion and strengthen the constitution.

It is a valuable medicine for growing girls. It has tided thousands over a critical period, and saved them from years of suffering. It can never do harm and is sure to do good.

A relief or cure for all female disorders in girls and women.

At every druggist's in $1.00 bottles. Try it.

WINE OF CARDUI

SERMONETTES

BY J. MARVIN NICHOLS.

Be a smile specialist.

Carlyle's definition of a king is "the man who can."

Every task is viewed through the eyes of your inclination.

The impossible becomes possible when a resistless will deals with it.

"The willingness to pronounce a thing impossible in view of the difficulties in the way of its accomplishment grows quickly into habit. This habit shortens the mental vision; it stifles ingenuity; it discourages enterprise; it limits every power."

All this hue and cry among those who would call the world's peacemakers visionaries, take upon themselves a heavy burden of proof. They are dreamers, to be sure! The kind of dreamers that were Cesear, Napoleon, Nelson, Washington, Grant and Lincoln—the dreamers who can make their dreams into realities.

Those nearest Mr. McKinley say that he also followed something greater than opportunity, and that through it he conquered every foe—even death. When reading the wonderful hymn of Bishop Newman, the hymn that the martyr President loved so well and repeated on his death-bed, what else could one conclude:

"So long Thy power hath blest me, sure it still will lead me on
"O'er moor and fen, o'er crag and torrent, till the night is gone."

My "Circle" declares that impossibilities are man's own creation, not God's, and for a man to voluntarily surround himself with impossibilities is an insult to his Creator. Let him, rather, stride forth upon the earth, over which he was given dominion; let him hold up his head; tighten his muscles; let the warm blood surge through his veins and conquer. It is the man who brings things to pass in spite of difficulties who honors his Maker, and is a leader among men. The angel who wrestled with Jacob declared, "As a prince hast thou power with God and with men, and hast prevailed."

HOLY JUMPER CRUSADE.

Queer Set of Religionists to Descend on New York.

New York, Aug. 23.—Broadway, and particularly that part of it lying between Times Square and Thirty-third street, is to be the scene of another religious crusade.

The failure of Dowie's mission here does not seem to have deterred the Holy Jumpers, who live on a farm near Weston, N. J. A hundred members of the Pentecostal Union, or "Holy Jumpers," whose headquarters are in Denver, are at present working the farm. After the crops are in, which will be in about a month, sixty of the Jumpers, men and women, are coming to New York.

"You can't do much with preaching," they say. "Even a band won't impress Broadway, but dancing will."

So their principal means of attracting hearers will be the dancing, or "Holy Jumping." In costumes consisting of helmets and bloomers, and for the women of flannel dresses and helmets, the Jumpers will gather in Times Square. After the crowd has gathered the fervor for jumping will seize upon the Armada.

Children in Pain

Never cry as do children who are suffering from hunger. Such is the cause of all babies who cry and are treated for sickness, when they really are suffering from hunger. This is caused from their food not being assimilated but devoured by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and begin to thrive at once. Give it a trial. "JUST FROM GEORGIA"

F. L. S. in Atlanta Constitution.

A Georgia Love Song.

I.

Roses in your garden,
But everybody knows
You are ten times sweeter
Than the sweetest rose!

II.

Mockin'birds a-singin'—
Strain' of their throats;
But your voice is sweeter
Than their sweetest notes!

III.

This is all I'm knowin',
Dearie, day by day;
Summertime, or snowin',
You're too sweet to say!

Take Your Medicine.

Get in the swim,
If that is all your hope;
But when you're deep and drowning
Don't holler loud for rope!

Says The Billville Banner: "Oh, that we might cash some of the musical notes of the mockingbirds at the bank!"

A Happy Citizen.

Here is the cheerful aspect of a Georgia philosopher, who exclaims:

"Ten acres in cotton, fifteen in watermelons, fine hopes of hog and hominy, and Rockefeller would give a million dollars for our appetite!"

Nothing Like One.

"Bought a piano last year," said the man.

"That't good."

"And yesterday I invested in an automobile."

"Better still."

"Yes; but I sold the house to buy it and now I haven't got shed to put it under!"

Says The Whitsett Courier: "The alligators swallowed a little niggers last week, which was an unwarranted interference with the race problem."

A Sunny Clime.

The mercury is risin' most suprisin'—
Risin' out o' reason any an' rule,
An' one perspirin' fellow advisin'
The other swearin' feller to keep cool!

But the melon's in the shell
Where it's coolin' for a spell,
An' we may yet be happy
We'll have joy enough to sell!

Weather Notes from Billville.

The summer boarders who come down here to cool off are so hot when they go to settle their bills they return home in a blaze.

Some of our citizens who took a vacation to get a rest have returned home in search of the very thing they went after.

If you can afford to hire somebody to swear at the weather for you; but you'll be sure to swear yourself into a perspiration because he isn't giving you your money's worth.

Sunday

"Does you think dey is a watermelon patch in heaven?"

"I sho' do! 'Twouldn't be heaven without one!"

"Get out of the wilderness," used to be the cry; but a man in the wilderness now, starts a sawmill and goes into the lumber business.

In the Fields.

I.

It's now we are a-roamin'
Where the sun serenely shines
An' the bees are makin' merry
In the honeysuckle vines;
Where the south-wind goes a-sighin'
An' a-singin' through the pines,
An' we're happy in the glory o' the mornin'!

II.

It's now we are a-roamin'
Where the river, cool an' deep,
Rocks the water-lilies—
A-singin' 'em to sleep;
An' the sweetness of the season
In the honey-dews we reap,
Happy in the glory of the mornin'!

If we can only worry through the troubles of this life we'll reach the hallelulia hills and join the everlasting song of Joy!

A Song of Poverty.

I.

The poor we still have with us
On the weary ways we tread;
When we sit before a banquet,
Or munch a crust of bread.

II.

The poor we still have with us—
No matter where we roam,
For they're all too poor to leave us
Till the good Lord calls 'em home!

Some of the best poets have abandoned the lyric lists and embarked in the novel-writing business. The idea seems to be that poetry is mighty soothing to the feelings, but it's the popular novel that pays the grocery bill.

"Thank heaven for the millpond, and the friendly, contented alligators!" says a Billville exchange. "'Tisn't have as dangerous as crossing the ocean to Europe!"

Leading Question.

De peach look mighty rosy,
Likewise de apple, too,
But what kin beat de melon
When he gives his heart ter you?

Glory.

Sing a song of weather—
Brethren, let her roll!
Glory in the heavens,
An' glory in your soul!

"I Say It All," is the title of a recent poem. That's just what some of the poets think, though few of 'em are candid enough to own up.

The New Prodigal Son.

"Who's that a-hollerin' down yonder in the branch?"

"That's the prodigal son. The old man's a-whalin' thunder out of him for runnin' away."

"Quit growlin' at the world and make a livin' out of it," is the sage advice of one of the philosophers.

He Came Through.

Satan in de deep sea,
Swimmin' hand on hand,
He set de sea on fire,
An' it light him safe to land!

Sometimes we get tired hoping for the best and whirl in and surprise the world by working for it.
